Hydrobiologia

The International Journal of Aquatic Sciences

Volumes 535/536, 1 March 2005

Theme

Morphology, Molecules, Evolution and Phylogeny in Polychaeta and Related Taxa

Guest Editors

T. Bartolomaeus & G. Purschke

Preface vii–viii

List of Participants ix–xii

Cell lineage and gene expression in the development of polychaetes
A. Dorresteijn 1–22

Trochophora larvae and adult body regions in annelids: some conclusions
C. Nielsen 23–24

Comparative structure of the epidermis in polychaetes (Annelida)
H. Hausen 25–35

Chaetae and chaetogenesis in polychaetes (Annelida)
H. Hausen 37–52

Sense organs in polychaetes (Annelida)
G. Purschke 53–78

Morphology of the nervous system of Polychaeta (Annelida)
L. Orrhage, M.C.M. Müller 79–111

Muscular system in polychaetes (Annelida)
A.B. Tzetlin, A.V. Filippova 113–126

The coelom and the origin of the annelid body plan
R.M. Rieger, G. Purschke 127–137

Structure and development of nephridia in Annelida and related taxa
T. Bartolomaeus, B. Quast 139–165

Annelid sperm and fertilization biology
G.W. Rouse 167–178

Oogenesis and oocytes
K.J. Eckelbarger 179–198

Pharynx and intestine
A. Tzetlin, G. Purschke 199–225

Pogonophora (Annelida): form and function
E.C. Southward, A. Schulze, S.L. Gardiner 227–251

Myzostomida: A review of the phylogeny and ultrastructure
I. Eeckhaut, D. Lanterbecq 253–275

Reconstructing the phylogeny of the Sipuncula
A. Schulze, E.B. Cutler, G. Giribet 277–296

Molecular phylogeny of siboglinid annelids (a.k.a. pogonophorans): a review
K.M. Halanych 297–307

Molecular systematics of Polychaetes (Annelida)
D. McHugh 309–318

Evolution of interstitial Polychaeta (Annelida)
K. Worsaae, R.M. Kristensen 319–340

Polychaete phylogeny based on morphological data – a comparison of current attempts
T. Bartolomaeus, G. Purschke, H. Hausen 341–356

Phylogeny of oligochaetous Clitellata
C. Erséus 357–372

Subject index 373–379

Species/generic index 381–387
